DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 24 October 2003 has been entered.

Allowable Subject Matter

- 2. Claims 1-12, 14-27, and 29-30 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: Claims 13 and 28, now cancelled, were previously objected to for depending upon rejected base claims. Applicant has now incorporated the limitations of these claims into each independent claim.
- 4. Thus, regarding independent claims 1, 2, 6, and 16, the prior art of record neither shows or suggests a multicolor display comprising, in addition to other limitations of the claim, a cross-talk minimization layer interposed between a substrate and at least two LEDs.
- 5. The subject cross-talk minimization layer discussed above is provided for improving the contrast of the display. Due to their dependency upon those independent claims above, all other pending claims are also allowable. The design is new and unique to the art.
- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
